Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 10 December 2009.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Applicants' election of the Group IV (original claim 9 and new claims 11-13) in the reply filed Dec. 10, 2009 is acknowledged. In view of Applicants' claim amendments, and upon further consideration, a supplemental species election requirement, as set forth below, is additionally required.

Election of Species

1. Claims 9 and 11-13 are generic to the following disclosed patentably distinct species:

- Structure of the selective dual antagonist for the 5-HT_{2B} and 5-HT₇ receptors

Applicants are required to specify a single chemical structure species for the selective dual antagonist for the 5-HT_{2B} and 5-HT₇ receptors. Applicants must elect a single chemical structure for the selective dual antagonist for the 5-HT_{2B} and 5-HT₇ receptors, for example from those described at p. 11, line 9 to p. 15, line 15 of the specification as filed (paragraphs [0044]-[0060] of the pre-grant publication). Applicants must define *each* variable group explicitly in the structure for the elected species (a species for example is methyl, not alkyl) to show how the elected compound reads on the generic structure. It also requested that applicants provide any known common or trade name(s) of the elected compounds.

2. Applicant is required, in reply to this action, to elect a single species from each of the species categories listed above to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on

Art Unit: 1611

the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

3. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: Groups I-V do not share a special technical feature and because claims to the different species recite the mutually exclusive characteristics of such species.

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

5. The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 1611

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
